Subject: Re: Magna Metals Site - Soil Vapor Investigation Report

Nick,

While I appreciate the submittal of most of the Soil Vapor Investigation Report, your client is not in compliance and penalties will accrue starting June 2, 2007. However, the Department will forgo the collection of accrued the penalties if the hard copy of the Report with all of the appendices is delivered to Sally Dewes by close of business Wednesday, June 6, 2007.

Rosalie

Sally,

Attached is an electronic copy of the Soil Vapor Investigation Report, which includes the text, tables, and figures. A hard copy will be sent next week (with all of the appendices). In the meantime, please let me know if you require any additional information.

Regards,
Marc
